

# The Trailer Washer

Making light work of your dirty work

## Reduce Turnover:

A 5 axis robotic arm does all the dirty work while a pair of variable speed 24 volt DC electric motors move the TW around.

All done from a remote control, with the operator OUTSIDE the trailer!

## Increase Efficiency:

Designed to wash the inside of a multi-deck livestock trailer. Up to 4 decks 30 inches each creates a washing environment which is "hands and knees only." Washer has an optional firehose or dozer too.

## Increase Control:

A reliable 15 function remote control allows all the washing to be done with the operator

Let the new Trailer Washer (TW) do the dirty work! Until now, there has never been a remote control system to wash the inside of those dirty multi-deck livestock trailers. Reduce your employee turnover, with this 5 axis variable speed robotic arm washer.
